ABORTIONS UNLIMITED - !!!

WE HAVE THE PREDICTION THAT A "CRISIS!" OF MAJOR PROPORTIONS WILL ENGULF THE ADVENTIST CHURCH. It will, of course - be the "OMEGA!" (AS FAR AS THEY CAN GO!) APOSTASY. It will bring us "FACE TO FACE WITH DEATH!" IT IS PART OF THE "10 VIRGIN PARABLE." It is a FINAL SPLIT between the "WISE!" and the "FOOLISH!" COL 421 (421).

THE FOOLISH - IT IS A FOREGONE CONCLUSION -

WILL GO WITH THE STATUS QUO. They have EXCUSED EVERYTHING - they will EXCUSE THIS ALSO. They will be expected to say: "I DON'T BELIEVE IT!" BUT SECRETLY THEY WILL BELIEVE EVERY BIT OF IT! But INWARDLY - in a FLASH! they will see that they must take a "STAND!"

"STAND WHERE THEY CAN DEFINE (MAKE KNOWN) -

"THEIR POSITION!" EW 69. "THERE WILL COME A 'CRISIS!' IN-EVERY-ONE-OF-OUR-INSTITUTIONS!" T5:479. (HOW LONG DO YOU THINK IT TOOK ME TO FIND THIS REFERENCE-?) THOSE ONLY WHO KEPT TRACK OF THESE REFERENCES THROUGH THE YEARS - will be the ONLY ONES to act as COUNCELORS IN THIS "CRISIS!" (1) BE BRAVE! COWARDS will FAIL! (2) WHEN does this "CRISIS!" COME? We said right along - it is NOT the "SUNDAY LAW!" because it is "SUDDEN!" and "UNEXPECTED!" The "SUNDAY LAW!" has been EXPECTED for 100 YEARS! Some seem to know - NOTHING ELSE! (3) This "CRISIS!" is "BEFORE-THE-SUNDAY-LAW!" (4) It will PARTICULARLY HIT "ADVENTISTS!" THIS IS IT - !!! THE MOST MASSIVE "COVER-UP!" there could be! (5) The FEW who EXPOSE IT NOW - are laying their LIVES-RIGHT-ON-THE-LINE! I DOUBT IF THEY REALIZE IT! But it was their BRAVERY in the PAST that gives them the COURAGE to act now.

I WOULD NEVER HAVE DONE IT THE WAY THEY DID IT!

I WOULD HAVE SENT IT OUT ANONYMOUSLY! But now that it is OUT - we must ACT ALSO! THE MORE THAT ACT - THE SAFER WE WILL BE! THE WORLD WILL CARE LITTLE WHAT HAPPENS TO "ADVENTISTS!" THE WORLD WILL SYMPATHIZE WITH THEM - NOT WITH US!

WE MUST BE EXTREMELY CAREFUL TO USE

THE ORIGINAL BOOKS - OR MAKE SURE THERE IS ESSENTIALLY LITTLE OR NO DIFFERENCE! WE MUST MAKE NO MISTAKE HERE! THIS IS THE FINAL DIVISION BETWEEN "WISE!" AND "FOOLISH!"

"AS THE STORM APPROACHES...

UPON THEM (AS IT WILL DO - STARTING NOW! THEY TRIED TO KILL THE NURSE ALREADY!)

"THEY ARE OVERWHELMED WITH CONSTERNATION!

and some are ready to exclaim: "HAD WE FORSEEN THE CONSEQUENCES OF OUR WORDS, WE WOULD HAVE HELD OUR PEACE!"

"THEY ARE THREATENED WITH DESTRUCTION!"

The ENTHUSIASM which animated them is gone, yet they cannot TURN BACK. Then, feeling their utter HELPLESSNESS, they FLEE to the MIGHTY ONE for STRENGTH. They remember that the WORDS WHICH THEY HAVE SPOKEN were not theirs, but HIS who bade them give the WARNING!

"GOD PUT THE TRUTH INTO THEIR HEARTS,

Two Weeks in an Adventist Surgical Department

The following letter was sent to us by an experienced Seventh-day Adventist registered nurse, who is now retired. After graduating from college in the 1950s, she spent the next thirty years or more as a registered nurse, both in Adventist and non-Adventist hospitals. After telling me over the telephone of several shocking incidents she had encountered in various hospitals, I asked her to write up a sample experience and send it for publication. Here it is. Over the years, she encountered many similar incidents in SDA and other hospitals in several states.

Along with the following narrative, this registered nurse included a brief list of medical definitions. They will help you understand the story which is to follow:

Amniocentesis — This is a fluid extraction test. A needle is inserted through the abdomen into a 5th- to 9th-month pregnant uterus, and fluid is extracted. It is usually done to check for hereditary chromosomal abnormalities, such as Down's syndrome, but this test also reveals the sex of the unborn baby. The test is generally performed preliminary to abortion—if the test proves positive for some type of defect or if the baby is the "wrong" sex.

C Section — This is a cesarean section, in which a baby is delivered live by cutting through the abdominal and uterine walls.

D&C (abortion) — This is dilation (enlargement) and curettage (scrapping) of the uterus through the natural vagina. It is the most common method of abortion in the first trimester (the first three months) of pregnancy. It is also done for other reasons, such as abnormal bleeding.

Ectopic pregnancy — This is any pregnancy growing outside the uterus. This unusual occurrence is generally a surgical emergency for both mother and child, when it is in a fallopian tube. If the growing fetus (which cannot possibly develop properly) is not removed, the mother also will die.

Hysterectomy — This is the removal of the uterus, either abdominally or vaginally. Doing it during pregnancy is much more risky, due to increased size and blood flow, and, of course, would be fatal to the baby.

Laparoscopy — This is looking down in the abdomen and pelvis with a small scope, through a very small abdominal incision. It may be done to detect ectopic pregnancy, pelvic disease, etc. It is not necessary to do a D&C when performing a laparoscopy. For the detection of disease, laparoscopies are also done on men.

Saline abortion — This is done by injecting a very salty solution into a pregnant uterus in the second or third trimester (6th to 9th months). Because the skin of the fetus is still quite thin, the strong salt solution causes it unbearable pain! The infant is slowly pickled and a horrible death occurs. Labor is induced and delivery occurs at home within a few hours or days. If it does not, the dead baby must be removed, with great risk of systemic infection to the mother. Occasionally the salt is injected into the wrong place or leaks out of the uterus. Then the mother may die also.

Tubal ligation — This is female sterilization by tying off the fallopian tubes through that same laparoscopy incision. This makes further pregnancies theoretically impossible, although sometimes the tubes open again. Obviously, D&C abortions are not necessary, when a tubal ligation is performed. Under regular circumstances, the baby is normally delivered live, and then the ligation is performed.

In the following article, you will learn that one of the techniques used in our hospitals to enable them to perform money-making abortions—yet apparently without having done any abortions at all—is by falsifying medical records. For example, a standard D&C abortion will be done, and then the medical record will contain the report that that particular operation was a laparoscopic examination or a tubal ligation.

The following incident occurred in one of the most pristine Adventist hospitals in America, located in a very conservative Adventist community that is located far from liberal Adventism. It was founded by men with the very highest Bible-Spirit of Prophecy health and medical standards. It is today an abortion hospital, yet few are aware of the fact. It will be listed on no records as ever having performed any abortions, other than a few in which the "life of the mother was threatened" if she carried it to full term. If you write to the hospital, you will receive a written reply to that effect. Yet they are regularly performing elective abortions—day in and day out. It is a lucrative business.

How can this be? It is a combination of three factors: (1) Hospital administrators and physicians more interested in making money than in being honest. (2) Patients who keep quiet because they are fearful that others might learn they had an abortion. (3) Falsified medical records, which only record a nonabortive pelvic examination/surgery, when what actually occurred was an abortion operation.

The abortion business is lucrative. It brings a lot of money to the attending physician and to the hospital or clinic in which it is performed. Yet the great majority of Adventists do not want abortions done in our own hospitals. So clandestine methods have been developed. You will now learn a few of them.

Former abortion clinic owners (who have converted to Christianity) have revealed that accounting procedures are also doctored, so that full disclosure of fees are withheld from the IRS. This makes it possible for much of these fabulous incomes (over \$300,000 a year for the physician alone) to go unreported, and thus be tax-free. Is this also done in

our own abortion hospitals? It would not be difficult for baby killers to go a step farther, and add falsified accounting charges to the already-falsified medical records.

Here now is this report:

I was stunned. Had I heard rightly? Not long before, I had returned to this Adventist hospital where I had worked years earlier. Then I had accepted a two-week vacation-relief position on the surgical unit. But, before doing so, I had carefully read the surgery schedules for several weeks earlier while still working in another unit. Yes, it was clear that no abortions had been listed. It would be safe to work in surgery for two weeks.

But this evening, after working on the surgical floor for most of the two weeks, in report at the end of my night shift a morning RN told me: "Don't you know that diagnostic laparoscopies and tubal ligations always include a D&C here?"

I was horrified. What if one of my patients had bled when I was not looking? She, I, and the hospital would be in big trouble. Yet I had not been told that these were abortions, and, hence, was not giving the postsurgical care needed. In order to hide the facts, the hospital was even willing to endanger the patients—and not tell me, a new nurse on duty, what was going on.

I had not seen any pregnancy tests ordered or filed, and no surgical consents for abortions were mentioned on any charts. Instead, four to eight laparoscopies were listed on each day's surgical schedule! I should have recognized the obvious: half of each day's surgeries were listed as "laparoscopies." My mind whirled. Half the operations performed at the _____ Hospital were abortions!

Yes, I had been curious why there were so many laparoscopies, but had dismissed the question. The fact that they were all performed on women should have provided me with a warning signal.

Since my two-week relief in the surgical wing was nearly over, I decided to say nothing that day. I wanted time to study the records better. Looking them over alone that night, I found that more than half the laparoscopies (the more uncomplicated ones, I presume) were done as outpatients. That night I examined all the inpatient charts (of patients still in the surgical unit). Beside about half of them (eight in all), the notation was penned, "Laparoscopy with tubal ligation" (ages 19, 22, 24, 29, 29, 29, 33, 35). Another one said, "C section with possible tubal ligation" (age 23). Two were listed as, "Diagnostic laparoscopy" (ages 21, 37). Two more noted as "Diagnostic labaroscopy with hysterectomy" (ages 20, 29). By one was the notation, "Postpartum tubal ligation" (age 22).

The next day I spoke with one of the op-

erating room nurses, and she admitted that most of the women having "diagnostic laparoscopies" were pregnant. She told me she had helped with abortions on them.

Then I talked to an IV [intravenous] nurse, and she also confirmed it. She added her experiences working in the emergency room. She said that the same physician who did the "diagnostic laparoscopies" brought women to the emergency room to do "diagnostic amniocentesis," and that is what they signed for. Thus, those women, in their second or third trimesters, had come for abortions. He wrote the medical record as being simply two types of medical tests. The women sign the form; and then, after making the incision into the uterus, the salt solution is injected into the womb. The baby dies a horrible death.

A combination of murder and lying reports.

I was low on savings at the time, living in housing owned by the hospital,—and I did not know what to do. Should I quit my job? Financially, I did not dare; yet I could not have any part in performing elective abortions. I would lose my soul. How could these Adventist doctors, nurses, and administrators carry on this falsifying, murderous business—and keep going to church each Sabbath?

The next day, I went to the personnel director and asked for a job in the medical records department, dietary department, or the laundry; anything to get me out of surgical!

Curious as to my sudden concern to leave surgical, he pressed me for the reason why. Hesitantly, I told him it was because I did not want to have anything to do with abortions.

When I said that, he quickly responded that, if that was the reason, then I would not be wanting to work for them in any capacity—and I would be terminated in the morning.

I did not know what to do. I was a Christian working in a place where Christians did not fit in. In fact, my experience indicated they were fired when discovered! I thought about it all day and could hardly sleep. That night would be my last at the hospital. In the darkness I started down the little footpath I had always taken as a shortcut through the woods to the hospital. But something bothered me, and I was impressed to take the long way around on a dirt road. The next morning I found live electric wires carefully laid across the foot path I usually took. Even then, it was still not very light and I was fortunate to have seen them in time.

That day I found a watermelon in my refrigerator. Surely, a friend must have left it. But I became violently sick after eating it. As soon as I was on my feet again, I immediately packed and left my used refrigerator behind for lack of money to move it. Then I started receiving bills for tests done during my pre-employment physical which, at the time, I had been told were free. It was not till a year-and-a-half later that I got them to accept the refrigerator in payment for the

tests.

So that was the end of my two-week shift in the surgical department of what I had discovered to be an Adventist abortion hospital. I was to learn about more Adventist abortion hospitals later. When the nurse (whom I had relieved during that two weeks) returned to work, I asked her about those abortions. But apparently they had gotten to her before I did. She told me that Hospital never performed abortions! Yet for two years she had worked in that same surgical department, caring, day after day, for all those "laparoscopy" and "tubal ligation" patients! All the other nurses there seemed to know—what less than two weeks there had taught me—that the place was an abortion mill. The nurse I had temporarily replaced was a Seventh-day Adventist, helping day after day in the slaughter of unborn infants—and now telling me that it never happened.

It seems to me that when you start on the path of abortions, you wind up doing a lot of other immoral and illegal things. You just keep going deeper into sin and hardness of heart. Our denominational hospitals are supposed to be an evangelistic entering wedge, but here they are training people in immorality, murder, falsification of reports, and lying.

Such hospitals are killing the babies, leading the administrative and surgical staff to perdition, and leaving the mothers with a lifelong guilt for having agreed to do it.

Such practices are not a saving wedge leading to Christ, but a killing spike through the heart. How does this open the way to bring anyone to Christ? When the mother is filled with the remorse that is almost bound to follow, who will she blame? The Seventh-day Adventist Church. How can we later assure her that her life is precious in God's sight if we have hacked her baby to pieces or pickled the only child she may ever have?

Can you in your wildest imagination see Jesus Christ having anything to do with abortion? What if Mary had aborted Jesus? After all, she was a single, pregnant young woman. Others may have suggested it to her.

Another thing that has struck me as very peculiar: They call the pregnant female a "mother" from day one, but deny she has a baby in her womb until birth, nine months later, unless, for instance, the mother is murdered—when the perpetrator is charged with two murders if they do not save the baby.

I recently heard the head of our Religious Liberty Department here give a sermon, in which he said that, though we might personally be against abortions, we must support their being done—because it was a "religious liberty issue." I afterward asked him if a revival of Baal, Moloch, or Aztec worship were to occur, would he defend their practice? He said he did not think so. I asked him what the difference was [since all three killed babies as part of their religious worship]. He had no answer.

Can these physicians and nurses who have taken part in abortions be trusted?

They have hardened their hearts to killing people, and lie to themselves and others that they are not really doing it. Perhaps they will later begin killing the mentally defective and aged. Would belief in miracles or the second coming of Christ be considered mental illness? Will that be reason enough for them to slay them too? I feel that doctors and nurses who perform, or have performed, abortions should be banned from delivery rooms and newborn nurseries. I have read about the men in slaughter houses who kill the cows with a sledge. It eventually crazes them and they are not safe to have around.

Yes, I have read those articles in the Review that abortion must be all right, since Ellen White never mentioned it. Are such articles written to encourage the women in our church to have them, to bring more money to our hospitals? Are they written to salve the consciences of the Adventist doctors and nurses performing them?

But, when I read those articles, I recall that early booklet she partly wrote, entitled A Solemn Appeal, containing a whole section condemning abortion as murder of the worst sort. I also remember something she wrote in Early Writings about heaven:

"As we were traveling along, we met a company who also were gazing at the glories of the place. I noticed red as a border on their garments; their crowns were brilliant; their robes were pure white. As we greeted them, I asked Jesus who they were. He said they were martyrs that had been slain for Him. With them was an innumerable company of little ones; they also had a hem of red on their garments."—Early Writings, pp. 18-19 (1882).

Who were those infants, if not aborted babies? If they were martyrs, then who were the killers? Why would so many babies be slain? Can you honestly believe that the killers will also be in heaven—unless, somehow, they later fully repented of their terrible deeds?

We have been fed the line that the fetus does not have any feelings, and unborn babies do not need anesthesia when they are salted or cut to pieces. But now we even have intrauterine photographs and films proving the opposite. It is now known that the babies die in agony, yet the abortion procedures do not change.

Those doctors are killers, and killers do not care. They kill for money, and the mothers permit the killing for convenience. In the Dark Ages, the Catholics killed the martyrs in order to take their property and for the convenience of eliminating heretics. Today martyrs are still being slain for profit and convenience.

We live in a time when those who protest sin in the church are denounced as evil people. But it is time that, individually and as a people, we return in deep repentance to Jesus Christ and obedience to His holy Ten Commandment law.
